Hey John,

I just left this message on your voicemail but wanted to also have a paper copy down.

I filed the OSHA complaint for the exposure on behalf of the inmates last night. Adam from OSHA called me this morning ((208) 321-2957) and after speaking with him a few times I was told the Idaho Industrial Commission and the Division of Building Safety would have jurisdiction over the case and I would have to refer the complaint to them if I wanted to move forward. I told him to go ahead and send them my information.

OSHA apparently can't touch it since it involves state parties in its entirety. As a result of it being referred I will be losing my anonymity in the process. I'll let you know if and when I receive more information.
